**Tel: +43 660 656 42 24**

# FACILITATOR

## KARI LESICK

Kari Lesick has worked in mainstream and complementary health and wellness for both people and animals for over twenty years. She has been fundamental in teaching and offering new perspectives on connectedness and healing at both CAT (Centre for Arts and Technology) Veterinary Hospital Assistant program and local High Schools. She has been involved in a number of International Outreach projects to support youth and children in Indonesia, as well as indigenous communities in Northern Canada. What Kari has come to love is being a part of observing and facilitating miracles in the ability of humans to heal through the art of connection. Her passion is to help you learn to connect more deeply, but also to maintain connection through life transitions - youth to adult, career change, divorce, bereavement, end of life passage. She loves working with families, couples, individuals and animals - but there is a special place in her heart for youth.

"I AM honoured to observe the **PROFOUND** life changes this work facilitates for **humans & animals**".

Animals are prey and predator, making them highly sensitive to their environment for survival.  
Engage with animals and nature to share information.  
Experience the animals' physical response and validation.  
Allow yourself to explore life through  
**LINKING AWARENESS WITH ANIMALS.**

It is my experience that the **ANIMALS LOVE** to share their profound abilities  
**TO ACTIVATE SELF HEALING.**
